

Each Phantom Screen is custom-fit to your home and installed by an experienced professional. Phantom Screens are offered in the most popular designer colors, to coordinate with the individual décor of your home. And they hold their stylish appearance, because they're fashioned from the

highest-quality extruded aluminum, with long-lasting baked enamel finishes.

Phantom Screens are as strong and durable as they are attractive: a unique spring tension system allows the ultra-sheer fiberglass mesh to absorb impact without sagging or tearing.

For your convenience, a service guide is provided, and trained service teams are quick to respond to your call. For additional peace of mind we offer a limited lifetime warranty.

Standard Colors

Classic White

Rideau Brown

Slivered Almond

Custom Colors

Phantom Black

Hartford Green

Driftwood Beige

Because
it's your home...
Because it's your
view...

Phantom Screens were
designed for YOU

At Phantom we recognize that traditional screen doors fulfill important functions - ventilation, all-season comfort, and protection from unwelcome guests with wings and stings. At the same time we have found that traditional screen doors have less than flattering visual consequences. That's why we developed the Phantom Screen® - the retractable screen solution with all the functionality of traditional screens and none of the awkward or unsightly results.

Installing a Phantom Screen means never diminishing the visual pleasure or striking views of your home. We lead the way by providing the ultimate door screen solution - a custom colored door screen engineered to smoothly, silently, simply disappear when not in use.

The Phantom Screen... Stylish, Versatile, Functional

Parallel top and bottom tracks hold the screen in place

The sturdy sidebar guides the screen across

When not in use the screen rolls back into the low-profile housing

Quality Craftsmanship brings peace of mind

Phantom applications

- Double French Doors
- Single In-Swing Doors
- Single Out-Swing Doors
- Sliding Doors
- Windows

Variety is the spice of life

Phantom Screens are at home in any setting. Their innovative design and tasteful styling fit into whatever room you choose – kitchen, front entry, living room, study, bedroom or bath. They're a perfect blend of form and function.

The classic elegance of double French doors is uncompromised by twin Phantom Screens, mounted on each side of the frame. When you want the doors open and the screens in use, they're drawn to the center and held in place by magnets. When not in use the Phantom Screens simply retract leaving only your French doors – "Magnifique!"

Vision: picture perfect

In the case of windows, the Vision Screen by Phantom is picture perfect. Open your window and slide the Vision gently into place. Close your window, and roll the Vision silently away. No more unsightly screens blocking your view.

On warm summer evenings, a cool breeze through your patio door is a welcome guest, however the bugs that come with it are not. Phantom has solved the problem of unsightly sliding screen doors. A single Phantom Screen is mounted on the center post, easily rolling out of the way when you don't need it.

The Phantom Screen maintains the beauty of your entry by subtly mounting to the door frame. "It's wonderful," said one home owner. "Pull it back and it disappears."

Phantom features

- Innovative retractable design
- Attractive styling and colors
- Versatility to fit most applications
- Professional service
- Industry leading quality
